### **Introduction**

This may be a surprise to many readers, but Jews are in a position of virtually total control of all important facets of the US government, a control that includes both domestic legislation and foreign policy. This is so true that it is not possible to separate actions or policies initiated by "Americans" from those imposed by their Jewish overlords, and in fact there is little policy emanating from the US that could be considered "American" in content. However startling this may seem, the truth of it is easily provable.

When the government of Ukraine was overthrown and the country's elected President replaced by a Jew who would instigate a war with Russia, it was another Jew, Victoria Nuland, in the State Department, who was making the selection of the President and pulling all the strings. The US

White House and Congress were uninvolved and meekly silent while all this was happening. The "Americans" will suffer the blame for the ensuing chaos, but Americans had no part of this; the US is merely a tool for the Khazar Jews to achieve their aims, functioning primarily as The Bankers Private Army. When Israel wanted the latest version of US military aircraft, US Generals declined, saying they needed the aircraft and that Congress would never approve the transfer. Israel's President Benjamin Netanyahu is quoted as saying, "Just get the aircraft ready. I'll take care of Congress."

Jews are not hesitant about openly demanding obedience from members of the US Congress, nor do they shrink from punishing the disobedient. As I noted in a previous essay on the Deep State,[\[1\]](#) US Congressmen and Senators are literally forced to sign an oath of allegiance to Israel and the Jews at the risk of losing the next election. It is hardly a secret that today **the main prerequisite for election to any US government position is a firm public commitment to the Jews' agenda, whatever that may include.**

We can easily identify the same patterns in finance and banking, in corporate legislation, in social policies dealing especially with abortion, education, gender and sexual matters, in food safety legislation, in the pharmaceutical world, and much more. In all these areas, there are Jews leading the process, very often from behind the scenes but increasingly done in the open. The Jews' absolute domination of all mainstream media, social media, Internet searching, book and magazine publishing, and advertising, ensures their total information control and thus public perceptions.

These statements are equally true, at least in significant part, for all Western countries and many others as well, like South Africa and Japan. The percentage of Jews in the governments of other nations may not be as dramatically high as in the US, but Jewish domination and control exist nevertheless. **Many Western nations, Germany being one especially notable example, are in practical terms Jewish colonies.** Canada, France, England, Italy, Holland, are not better. It doesn't seem to be widely-known, but **this is precisely the reason democracy was created as a form of government;**[\[2\]](#) it is the only system of government that permits alien outsiders to take total control from behind the scenes.

Jews hold an enormous, and enormously disproportionate, number of positions in the US government at all levels from Secretary of State to a communications clerk. A large number of these people have dual Israeli-US citizenship with clearly concomitant loyalties, almost all being Zionists as well. This essay presents some accumulated evidence garnered from various publicly-available sources. It is by no means complete; a full list would contain many thousands of names.

In reviewing the lists below, a few points should be kept in mind. One is that **each name is just the apex of a Jewish pyramid**. Since these individuals are almost all in executive positions with large departments under their reign, they will appoint many other Jews in turn. A Jewish Secretary of State will appoint many Jews to various State Department offices and many Jewish US ambassadors. Similar with Defense, Treasury, Commerce, and so on. If we add in all the handlers, aides, assistants, deputies, lawyers, advisors, and the multitude of high and middle-level bureaucrats and policy-makers, the number of ethnic Jews in a typical American administration would likely be 40% to 50%. This is a fact recognised and admitted by American Jews themselves, one prominent Jewish publication stating, "**The US has no longer a government of Goyim [Gentiles], but an administration in which the Jews are full partners in the decision making at all levels.**"[\[2a\]](#)

According to the Jewish Forward,[\[3\]](#)when [John Deutch](#) was appointed Director of the CIA, he immediately "made a series of personnel changes", appointing [David Cohen](#) as Deputy Director and [Nora Slatkin](#) as Executive Director, giving her "broad, unprecedented authority over the deputy directors". Jews also filled four of the CIA's seven directorates, with another Jew, [Arlen Specter](#), being appointed around the same time as Chairman of the Senate Intelligence Committee, giving Jews a virtual stranglehold on the workings of the CIA. It was the Jew [Sydney Gottlieb](#) who was appointed head of the CIA's inhuman MK-ULTRA program, with other Jews put in positions of worldwide political murders and assassination projects.[\[4\]](#) One such person, [Samuel Halpern](#), was the "executive officer of Task Force W" which was established to kill Cuba's Fidel Castro[\[5\]](#)[\[6\]](#)[\[7\]](#) - primarily in retribution for Castro's expulsion of the Jews after the Revolution, with "Americans" being blamed for all the failed attempts on Castro's life.

Similarly, when [\*\*Madeleine Albright\*\*](#) was appointed US Secretary of State, she immediately organised a slate of candidates for all the top positions in the State Department, which consisted entirely of Jews. She immediately appointed [\*\*Dennis Ross\*\*](#), [\*\*Stuart Eizenstadt\*\*](#), [\*\*Mark Grossman\*\*](#), [\*\*Princeton Lyman\*\*](#), [\*\*Howard Wolpe\*\*](#), [\*\*Stanley Roth\*\*](#), [\*\*Jeff Davidow\*\*](#), [\*\*Martin Indyk\*\*](#). Indyk had his security clearance suspended by the State Department for "suspected violations" of security norms, "over a long period of time", but that didn't stop Albright from clearing him anyway. In related news, something similar occurred with Donald Trump's handler and bearer of instructions from his masters in The City of London - his son-in-law, [\*\*Jared Kushner\*\*](#), who apparently failed every category of security examination but was appointed anyway.

Even when appointees are not Jewish, the Jewish lobby usually has much to celebrate. Early in Clinton's first term in 1993, the MetroWest Jewish News boasted that "The new [Clinton] administration will also have the added strength of two very strong [non-Jewish] supporters of Israel as [\*\*Secretary of Defense Les Aspin\*\*](#), and [\*\*Central Intelligence Agency Director James Woolsey\*\*](#). Aspin, as Chairman of the House Armed Services Committee, has been an architect of - and key figure in - U.S.-Israel strategic relations. Both men are members of the board of advisors of JINSA, the Jewish Institute for National Security Affairs."

Since Jews comprise only about 1.5% of the US population, we can legitimately ask why they should expect to be "full partners" in "all levels" of the US government, and I think we could all wish we had "as little influence" as they do. Another factor is that many if not most have Israeli citizenship or otherwise deep connections to Israel, with their prime loyalties generally in that direction. As well, most of these people are avowed Zionists and unlikely to miss an opportunity to further that agenda which will seldom be compatible with US interests. Finally, most of these individuals have deep contacts with AIPAC, the Rothschild Council on Foreign Relations, the Trilateral Commission, many of the prominent so-called Think Tanks and Foundations, as well as related organisations like the RAND Corporation, and will not only be taking instruction but acting in behalf of the varied agendas of these groups - all of which are staunchly Zionist, and all instruction and control emanating from the cabal of Jewish bankers in The City of London.

## **How Sweet it is to be Jewish**

On October 3, 2001, the Israeli Press Agency reported on a Kol Yisrael radio program where Shimon Peres warned Israeli Prime Minister Ariel Sharon that refusing to heed incessant American requests for a cease-fire with the Palestinians would endanger Israeli interests and "turn the US against us." At this point, a furious Sharon reportedly turned toward Peres, saying "Every time we do something you tell me Americans will do this and will do that. I want to tell you something very clear, don't worry about American pressure on Israel. **We, the Jewish people control America, and the Americans know it.**" [\[7a\]](#)

The confidence and boasting about the influence and power of Jews in the world go much farther than this. In October of 1998, **Alain Finkielkraut**, a professor of philosophy at France's elite Ecole Polytechnique, had an article published in the French daily Le Monde, titled "Mgr Stepinac et les deux douleurs de l'Europe"[\[8\]](#) in which he stated:

**"Ah, how sweet it is to be Jewish at the end of this 20th century! We are no longer History's accused, but its darlings.** The spirit of the times loves, honors, and defends us, watches over our interests; it even needs our imprimatur.\*[\[8\]](#) Journalists draw up ruthless indictments against all that Europe still has in the way of Nazi collaborators or those nostalgic for the Nazi era. Churches repent, states do penance, Switzerland no longer knows where to stand ...". \* An "imprimatur" is official permission to do something, given by a group of people in a position of power. Finkielkraut is reveling in the thought that Jews have so much power and influence today that much of the current events of the world require Jewish sanction or acquiescence to proceed.

But this attitude was by no means a recent development. The Jewish Daily Bulletin stated in its publication on July 27th, 1935, **"There is only one power which really counts. The power of political pressure. We Jews are the most powerful people on earth, because we have this power, and we know how to apply it."** Israeli commentator Israel Shahak says Jewish influence on governments, the US in this case, "is due to their great political influence in general and their predominance in the media in particular" and the ability of the "organised American Jews" to use their power for their own interests.

Many of the Jews who have obtained positions of power in the US government are also officials of AIPAC and other Jewish pressure groups such as the ADL. When you add in the almost total control of all forms of mainstream and social media, especially including newspapers and television, of most magazines and all of Hollywood, of most of the book publishers and book sellers, of most of the major international advertising agency conglomerates, of all the large banks and the banking system, the so-called "merchant banks", the hedge funds, the large M&A groups, and the beneficial ownership and control of a majority of the multi-national corporations, to say nothing of their presence in higher education, **the extent of Jewish influence and control is impressive indeed.** And none of this latter is part of what we call the 'deep state' or the 'hidden government'. These are just the people who support it and benefit from it.

**This overload of Jews in all US Administrations seriously affects the US position in all foreign relations, not the least of which involves the 70-year-long Jewish atrocity in Palestine.** The Jerusalem Post wrote that with so many Jews in the upper echelons of American government, "Arabs have repeatedly complained that the United States has not acted as an honest broker" in Middle East peace negotiations. Israeli commentator **Meron Benevenisti** described an Israeli newspaper's depiction of the 4-member Clinton "peace mission" as "the mission of four Jews", the paper "gloating with pride while talking about the Jewish roots of all its members."

These conditions hold true for what appears to the public as "the American position" on all consequential foreign circumstances, specifically including Iraq, Libya, Syria, Russia, China, Cuba, Iran, Somalia, Venezuela, and others. But because of the almost total control of the US Congress and White House by Jews, as well as virtual total control of all the media, what the world sees emanating from the White House is the Jewish position on all these nations, a policy dictated by the Jewish Bankers (led by the Rothschilds) from The City of London.

**This is so true that there is really no such thing as "a US position" on anything involving foreign nations or policies.** The fact that so many US Ambassadors are also Jewish, that Jews have a stranglehold on both the State Department and the US Defense Department, is a powerful negative for other nations. At one point, James Zogby, head of the Arab American Institute, wrote with alarm in an article entitled "A Dangerous

Appointment", that **more than two-thirds of all the work done by or for the US Defense Department involved representing Israeli interests.**[9]

"In 1997 Jewish American journalist **J. J. Goldberg** gave a lecture to the Labor Zionist Alliance of Canada. The Canadian Jewish News reported on the talk, noting that Goldberg proclaimed that "**Jews are the "players" in the modern world, not "victims".**" "[Goldberg] went on to give many examples of American Jewry's influential role in American politics. 'We Jews run American Middle East policy.' This is so true that when Israeli President Ezer Weizman traveled to the US, community leaders were invited to the White House for lunch and to discuss American Middle-East policy, and the only non-Jews in the room were Bill and Hillary Clinton.

### **Connecting Some Dots**

A major portion of this essay is a list of Jews holding important positions in the US federal government, which positions collectively give them as a group enormous power over the government, its domestic activities and, most importantly, over all America's foreign affairs policies and enterprises. The positions recorded in the lists below are mostly quite recent, but **I have included some appointments from the 1960s, 1970s and 1980s to demonstrate that Jewish control of the US government has existed for decades but has been increasing at an alarming rate in recent years.**

In examining the distribution in the US government, Jews concentrate heavily in the **White House** to control the President, in the **State Department** (including Ambassadors and Consuls-General) for control of all US foreign policy, in the **Treasury Department** and financial areas for control of the economy and spending priorities in the US Federal budget, in the military areas of **Defense and Intelligence** to control the wars and color revolutions, and in the **Judiciary**. Their control of Congress is already legendary, with many observers stating that the US **Congress is "Israeli-occupied territory"**.

This is partly an aside, but it is not a secret that **every "Congressional Investigation" in living memory has been widely denigrated as "a whitewash"**. This includes everything from the 1929 stock market crash, the 1934 Jewish attempted fascist coup on the US government,[\[9a\]](#) the JFK assassination, the various "investigations" on US torture practices, the Japanese attack on Pearl Harbor, to the incredibly distorted series of hearings on 9-11. Indeed, I cannot recall a single Congressional investigation ever being held that was not immediately categorised as "a sham", "a fraud" and "a whitewash", with the Jewish-controlled mass media unanimously denigrating all doubters as "conspiracy theorists". Unquestionably, some of these obviously false investigations were heavily controlled by Jews in the background because Jews were primarily responsible for the event concerned. Proof is certainly available, but can gain no traction because of media censorship.

A noteworthy phenomenon is that Jews from Germany and Eastern Europe, primarily Russia and Ukraine, tend strongly to head for the US government. But the infiltration into the US government of Jews from the rest of Europe, from Italy, France, the Netherlands, the Nordic countries, is almost zero. **It seems to be mostly German and Russian/Ukrainian Jews who have taken control of the US government.**

Another interesting distribution is that if we look at lists of Jews in the US where the occupations are also listed, the overwhelming majority are in the performing arts - actors and actresses, singers, songwriters, musicians, playwrights, comedians, movie directors or producers. The next category, much smaller, is law, followed by an alarming number of Jewish university presidents and department heads. The next most populous category is banking and finance, followed by medicine and the sciences, with little else of consequence; three economists, two philosophers, one pastry chef.

In a broad category related to performing arts, there is very much media involvement - many journalists, novelists and writers of fiction, some Jewish so-called "historians" who re-write history to fit the Jewish narrative - and which can also be categorised as fiction. Then there is the mass media including most newspapers and magazines, radio and TV networks, the book publishers and sellers, all the social media, Internet search engines, information platforms like Wikipedia, the so-called "fact-checkers" like Poynter, Snopes, and factcheck.org, most of the advertising

industry - especially the international giants, and of course Hollywood. All of these are almost entirely under Jewish control, not only feeding the Jewish narrative to the world's publics but increasingly enacting severe censorship and content restriction to ensure almost total information control. We are at the point where any information or opinions contradicting the Jewish agenda is categorised as "misinformation" and is blocked, censored, or banned.

"Conspiracy" may not be the most appropriate label to apply to this concerted effort, but it is very apparent that all participants are reading from the same script and are all on the same page.

In a current real-life example, the City of London will issue an edict that LGBTQ+ and trans-sexuality are the "new normal" for Gentiles. The Jewish-controlled media will immediately flood the airwaves and print with the philosophy of beneficial incest, bestiality and homosexual necrophilia, and the Jewish Hollywood studios will produce excellent movies proselytising the subject. Following in lock-step, the Jewish-controlled social media will ban or delete any contradictory opinions or facts as "misinformation". White House "advisors" will parrot the media position to the President, instructing him to get onside lest he have a palace revolt and his ratings fall to jeopardise his chances of re-election. The Cabinet, being mostly Jewish, is already onside. Jewish lawyers will file multiple briefs to the courts in support of this new agenda, and Jewish judges will rule in favor.

In the meantime, America's Jewish Ambassadors and Consulate staff will be proselytising this agenda in countries around the world, again heavily supported by the Jewish-controlled media in those countries. The Israeli Embassies and Consulates will be doing the same things, but they have little power around the world and can't do much by themselves. They need the diplomatic and extortion power of the US to help them further their agendas. And in short order, all the cities, at least in the Western world, will have "rainbow pedestrian crosswalks" at their street intersections to celebrate Jewish sexual perversions.

And nobody will even know what happened. The Jews did it for abortions in exactly the same way. They did it for COVID in exactly the same way, and for ZIKA. They are doing it again today for many more agenda items,

including Klaus Schwab's WEF and his "You will have nothing and you will be happy" agenda.

**It is crucially important for the world to identify Jews as Jews**, not in a general widespread sense, but with those individuals active in government, finance, education, social policy, the media, and in foreign affairs. As in the above example, we are generally aware of the flood of media attention suddenly being paid to LGBTQ+ and trans-sexuality as well as renewed attention to free abortion policies. But our perceptions are altered and our understanding of the forces shaping our social society is greatly improved when we can see that virtually all those individuals proselytising these social changes are Jews. It is almost entirely Jewish academics, activists and others who create the public pressure for this sexual social upheaval, and it is entirely Jews who exert pressure on governments to adhere to this agenda, all heavily supported by the Jewish-controlled media. It now becomes obvious that **what appeared to be a "natural" social change or evolution is in fact the result of a tightly-coordinated plan being executed by one race of people**. It seems that the "sexologists" are all Jewish. [\[10\]](#) [\[11\]](#) [\[12\]](#) [\[13\]](#) [\[14\]](#) [\[15\]](#) [\[16\]](#) [\[17\]](#)

There is one other part to this business of the Jews' control of the US government. It is of considerable importance to understand that US government departments do not function in a vacuum, and neither do their staff. The Jews who hold these government posts are also generally intertwined with many other sectors and institutions, greatly magnifying their influence. In addition to their federal posts, these Jews very often have teaching positions at prominent universities and are frequently members of the so-called neocon "think tanks" like the Rothschild Council on Foreign Relations. Many are active in AIPAC or the ADL and other powerful Jewish lobby groups. They also have many corporate board memberships, are on the current lists of authors for much of the Jewish media newspapers and magazines. Many of them frequently appear on TV news programs.

As well, Jewish lobby groups have enormous additional influence on US government policy. The Jewish Standard published an article boasting of the power and influence of AIPAC, "shaping how Congress and others" affect the White House administration. "AIPAC has tremendous reach".[\[18\]](#) The Jerusalem Post boasted that the major Jewish organisations "have the ear of the president, senior administration

officials, and federal and state government officeholders across the United States."[\[19\]](#)

## Denials and “anti-Semitism”

When writing of Jewish influence and control of a society's segments, most especially those in the US like Hollywood or the media, or the ownership of the FED, there is always a flurry of denial and often vicious personal attacks even though the Jews like to boast in private of their control of these same segments.

When William Cash wrote an article on the Jews' nearly total (more than 80% by content and revenue), control of Hollywood, the Jewish defense machine went immediately into action. "Fifteen leading Hollywood personalities, including Kevin Costner, Tom Cruise, Kirk Douglas and Barbra Streisand, signed a letter to the Spectator accusing Cash of advancing "anti-Semitic stereotypes" and "racist cant." **Leon Wieseltier**, literary editor of the **New Republic**, wrote to the Spectator's editor hinting at retribution and said: "You run a filthy magazine"."[\[20\]](#) And there was retribution indeed; the publishing company immediately lost advertisers and circulation. Jewish publications on both sides of the Atlantic pilloried the company and its publications.[\[21\]](#) [\[22\]](#) The dirty part is that the article had nothing to do with "anti-Semitism"; it simply discussed a fact already widely-known but that cannot be discussed in polite company. The Jews will viciously attack anyone shining a light on their pervasive power and influence in any sector.

Anticipating this same response (as well as the usual charges of anti-Semitism) to claims of the Jews controlling Washington, we can expect the multitude of Jewish organisations to emerge with strident defense denials, but those denials are false.

The Jewish magazine Mosaic equates any mention of Jewish control, especially of the US State Department, to anti-Semitism, stating "**Stigmatization by overt anti-Semites magnifies the extent to which discussions surrounding the American Jewish diplomats can easily descend into nose-counting and age-old racial slurs.**

Conversely, it is extremely difficult for the American Jewish community to discuss such matters in a comfortable, open, and critical manner ... Mindful of this concern, one would hardly want to spur public awareness and inadvertently damage Jewish interests."

It should be obvious that such statements are grossly dishonest. Mentioning all the famous Jewish actors like Harrison Ford or Kirk Douglas meets with smiles and praise, but any mention of Jews in government, Hollywood, universities, finance, or the media inevitably result in dirty denunciations of "anti-Semitism".

In terms of diluting the public consciousness of the overwhelming presence of Jews in the US government, **I found this Jewish tactic reprehensibly dishonest:** The **Times of Israel** published an article headlined "White House slams 'spurious' attacks on Jewish, Palestinian staff picks."[\[23\]](#) The purpose of the article was to discourage the public from identifying Jews in the US government, doing so by relying on guilt, an assumed morality, and American ignorance. Briefly, the American public had been too vocal in identifying Jews in powerful government positions, so the Jews crafted a solution: the **Jewish News Syndicate** identified the single Palestinian (Maher Bitar)[\[24\]](#) holding a position in the entire US government, and published an attack on that person, very obviously according to plan. The Times of Israel then produced this article with a composite photo of a Jew and the Palestinian, denouncing imaginary public identification of government officials by race, clearly suggesting that both Jews and Palestinians were being morally undermined by this racial identification. To further the deception, the composite photo of the Jew and the Palestinian side by side suggested these two races were really good friends who were "partners in oppression". Of course, this was merely a clever and gigantic fraud. It was Jews who were being outed by the public; nobody noticed or mentioned the single Palestinian, but the Jews remedied that by outing and attacking him.

If you are so bold as to even mention Jewish control over any sector of anything, you will be immediately denounced as a conspiracy theorist, an anti-Semite and a holocaust-denying Nazi Jew-hater. Of course, that's all rubbish, and very nasty rubbish, but it's also successful rubbish, most people being too intimidated to dare mention the Jews in anything but a fawning context. And Jews can be astonishingly vicious, savage even, in their attacks on anyone daring to expose their control. They will without hesitation completely destroy a person's career, reputation, and bank accounts. Here is an essay containing a few startling examples of this.[\[25\]](#)

The profoundly disproportionate - and quite dominating - presence of Jews in critical US government positions, and the disturbing implications of this, is apparently entirely unnoticed by the (Jewish) mass media. Yet privately the Jews revel in their power and influence. The Jerusalem Post gloated in providing this information: "**This completes the 15 Jews in senior positions in the Biden administration. And, just for interest, here are the 10 Catholics among Biden's appointees.**"[\[26\]](#) The Jewish News of Northern California published an article positively beaming in pride about the large number of Jews "flocking to foreign-service careers" in the US government.[\[27\]](#)

Matthew Dorf, a reporter and columnist for the Jewish Telegraphic agency, wrote the following in a book: "Worried about publicity about the presence of so many Jews in the upper echelons of the American government, one "senior official" in the State Department refused to be interviewed for an article about the subject by the Jewish Telegraphic Agency, saying, "**No good can come from this. Especially because there are so many of us.**" It is a matter of legend that on Jewish holidays virtually the entire State Department is barren of people. Interestingly, the same is reportedly true of the Pentagon, not of the actual military staff who are almost entirely Gentile, but of all their civilian superiors and staff who are largely Jewish (and who actually control the military).

## Censorship of Jewish names

In an earlier article on doing historical research,[\[28\]](#) I wrote the following:

There is no question that it is more difficult to search the Internet today than was the case 15 or 20 years ago. Especially on the English-language Internet, information control is much more apparent and effective, and censorship is now fully in the open with little or no pretense or disguise. Many web pages or documents which would always appear on the first page of a search in the past, cannot now be accessed by normal means, and many sources have been deleted. Many links to historical documents that I saved 15 or 20 years ago, are still active, and the documents can still be accessed, but they will no longer appear on a search with any terms. It is now often true that even if you know the complete title of a document, the search engines – especially Google – will refuse to produce it. This is so true that **Google (particularly) no longer functions as a useful search engine**; it is instead a "gate-keeper" with two main functions. One is to feed you information it wants you to have (or things it wants you to think), and the second is to ensure you never find information it doesn't want you to have (or things it doesn't want you to think).

As one concrete example, it is not widely known that after World War II the Allies and Jewish industrialists stripped Germany of most of her useful remaining factories, removing all machinery and equipment to the US, Russia and other countries, simply confiscating all of it as "reparations". Fifteen years ago, it was easily possible to find hundreds of photos on the Internet of German factories having their machinery removed, being

loaded onto train cars, and carried away. Today, it is impossible to find any. Either all the photos (and the evidence) have been deleted from the Internet, or the search engines simply refuse to produce them.

This is a very serious matter. There exists today literally an army of people scouring the Internet for historical and political content that is criminally incriminating, and making strenuous efforts to have all that content deleted. And, from my experience, I would say they are achieving considerable success. These efforts can apply to a wide range of historical and political events and circumstances, but I find the concentration in two main areas, both involving the Jews. One area seems to be a determined effort to **erase any identification of individuals as being Jews**, especially those involved in serious crimes or atrocities. The evidence of this is everywhere. Consider the recent scandal involving **Jeffrey Epstein**; of the hundreds of articles in the media about this case, I cannot recall seeing a single one that mentioned Epstein[29] and **Ghislaine Maxwell[30]** were Jews. That cannot possibly be an accident; the mass media, being almost entirely Jewish-owned or controlled, do not want such associations made in the public mind, and the censorship is severe.

Wikipedia appears to be systematically deleting all references to individuals being Jewish. I have Wiki pages on individuals which I saved some years ago, which specifically identify those individuals as Jewish, in some cases discussing many details of their Jewish background. But those same pages today have had all those references deleted. And not only Wikipedia. But it's even worse than this. In researching lists of names and Jewish identifications for this essay, the search engines - Google and Bing - cut me off entirely. I had been searching for Jewish names in various categories of government, but then my requests were all suddenly blocked. Searching for a list of CIA Directors, I received this result:

The screenshot shows a Microsoft Bing search interface. The search bar contains the query "List of CIA Executive Directors". Below the search bar, a navigation menu includes "ALL" (which is underlined), "IMAGES", "VIDEOS", "MAPS", "NEWS", "SHOPPING", and "MORE". The main content area displays the message: "There are no results for List of CIA Executive Directors. Check your spelling or try different keywords."

Reverting to another browser and search engine, and searching from another country, I received the results without difficulty. The information

was still there, but Google and Bing were obviously programmed to refuse to produce certain results, this being consistent for all searching done for US government departments, lists of staff, and anything involving Jews. I was completely blocked in those areas. I was permitted to search for the weather in Southern Italy or the making of a Caesar salad, but all useful research was totally censored. At first, I was confused, but then I realised that the actual pages appeared on my computer screen for a fraction of a second but were then quickly replaced with the "sorry, no information" page. This clearly was deliberate and planned; searching for the identification of Jews is being not only restricted but prohibited - by the Jews.

## **Who is a Jew?**

Given a series of contrived complications and what appears to be a general unwillingness among many Jews to reveal their ethnicity, it can be extremely difficult to identify those Jews active in our societies. In a recent article on Jewish assimilation,[\[31\]](#) **Dr. Kevin MacDonald** wrote the following: "But typically, in the absence of evidence of explicit Jewish activism . . . one must pore over detailed biographies that include, e.g., accounts of private conversations and letters. Freud, for example, left behind a great deal of evidence of his Jewish identity and his sense of Jewish interests. Others did not, so one is forced to piece together an account on relatively scant evidence." It is not always simple to identify Jewish ethnicity with absolute certainty, and **many Jews prefer to not be so identified - one reason they change their names.**

**Who is a Jew?** This question is neither as simple - nor as complicated - as the Jews present it. The original, official version was that if your mother was a Jew, then you are a Jew. Period. No apparent room for discussion here.

"The Code of Jewish Law clearly states that a child of a Jewish mother is Jewish, regardless of the father's lineage (or whatever else may show up in a DNA test), while the child of a non-Jewish mother is not Jewish. Matrilineal descent has been a fundamental principle of Torah since the Jewish people came into existence."[\[32\]](#)

However, the Jews themselves regularly fail to adhere to the rules. In a Wikipedia article on **Frank Damrosch Jr.**, we read, "[He] was an American Episcopal priest, author, and writer, the son of noted composer Frank Damrosch, [who] served as a leader of the Anglo-Catholicism movement in the US [and who] also authored three books and penned articles for [Catholic] magazines.[\[33\]](#) [\[34\]](#) Yet Wikipedia (an entirely Jewish platform) lists this person as a Jew, clearly disregarding the change of religion.

In another article discussing **Arthur Schlesinger**,[\[35\]](#) [\[36\]](#) Wikipedia tells us, "His paternal grandfather was a Prussian Jew who converted to Protestantism and then married an Austrian Catholic. His mother . . . was of German and New England ancestry . . . His family practiced Unitarianism." But Wikipedia classifies Schlesinger as a Jew. In the matter of **John Kerry**,[\[37\]](#) former US Secretary of State, we are told, "His father was raised Catholic. John's paternal grandparents were Austro-Hungarian Jewish immigrants who converted to Catholicism, and his mother was Episcopalian. The children were raised in their father's Catholic faith, and John served as an altar boy." But John Kerry is claimed as Jewish.

In another example, this concerning the US astronaut **Jessica Meir**, the Jerusalem Post headlines an article with "Will Jewish astronaut Jessica Meir be NASA's first woman on the moon?"[\[38\]](#) Yet the same article tells us Jessica was "Born in Maine to a Swedish mother and an Israeli-Jewish father . . ." The article claims **she identifies as Jewish and is therefore a Jew**. Still with Jessica Meir, the Jewish Kveller website tells us,[\[39\]](#) "Jessica Meir is a 44-year-old astronaut from Caribou, Maine. Meir's mother is Swedish, and her father is Israeli of Iraqi Sephardi heritage. **And yes, she's Jewish.**" (emphasis mine). In another case, on the same Kveller website celebrating "Jewish astronauts", we are told "**Mark Polansky** grew up in Paterson, New Jersey, the son of a Jewish father and a Hawaiian mother of Korean descent." And **Polansky is also claimed as Jewish.**

But let's try to illustrate the intentional duplicity pervading this entire matter. To further other aspects of their agenda, the Jews have confused and confounded this to the point where there may be no resolution.

One aspect of this confusion is the position that "**being Jewish is just a religion**". This is clearly nonsense for more reasons than I have space to list, but let's deal with one obvious and irrefutable contradiction: **If being a Jew merely reflects membership in a religion, how is it that I - and millions of others - can look at a face and tell you instantly that person is a Jew? It would be a mighty powerful religion if it can alter the facial features of its adherents.**

Sheldon Lavin (forbes.pl; zuma press photo); Sheldon Adelson (Observer.com photo); Madeleine Albright (AP photo)

This is nonsense (a huge lie, actually) on another basis too: the "Jew as religion" theory implies that if a Jew abandons Judaism and adopts Christianity, that person is no longer a Jew. Well, he would be what, then? Nothing?

Many Jews further complicate this by claiming (as does Elon Musk, for e.g.) to be atheists, thus refutation of all religion apparently negating the possibility of the person being a Jew. And that is also foolish. Refutation of religion is not the same as refutation of racial heritage. If Elon Musk - a Jew[40] - abandons Judaism and professes atheism, then what is he? He can't claim to be American because that's not a race; it's a passport. And he cannot - as many Jews try to do - claim his race as "White"; that is obviously a skin color, not an ethnic group. Consider this in terms of other nationalities. **If a Catholic Italian abandons Catholicism and adopts Islam, or claims to be an atheist, does he stop being Italian?** Of course not. That's foolish. His religion is unrelated to his racial or ethnic roots, and irrelevant.

The salient point is that every individual must, by definition, belong to some race, to some ethnic group. It is not possible to be nothing. Yet

International Jewry (the Khazar Talmudist Mafia again) are now claiming there is no such thing as race, a position that is worthy only of ridicule and deep suspicion as to their intent. And the intent of this nonsense claim appears to be solely to permit Jews to avoid identification as Jews. It serves no other purpose.

This issue has a prime cause in that, with Jews amassing increasing amounts of power and influence over Western societies, many have become increasingly reluctant to be identified as Jews. The Khazar Talmudists (Benjamin Freedman's "so-called Jews")[\[41\]](#) [\[42\]](#) in The City of London, saw this problem arising decades ago, when they launched a two-step solution. The first step was to heavily promote the idea that being a Jew is merely the practice of a religion. The second was to force the passage of laws throughout the US that made illegal any request to disclose a person's religion (as for employment, for e.g.). But this was unrelated to religion, as should be obvious, since the only significant result was to make it illegal to ask a person if he is a Jew. And, in real life, no employment application form for any company anywhere ever asked a person's religion; at least, I have never heard of such a thing, and I don't know anyone who has.

There is another complicating factor driving the "no such thing as race" theory, in that the Jews themselves are two races.[\[43\]](#) [\[44\]](#) There are Semitic Jews from the Middle East, and the Ashkenazi Jews originally from Khazaria who are genetically European and who have had absolutely no contact with, nor any claim to, The Holy Land. Most Jews today, more than 95% by Jewish estimates, are European Khazars, a distinct race who consider themselves Jews and who still use the old (sexually-perverted) Babylonian Talmud as their bible. As an example, one notable portion of the Jewish Talmud is a discussion of whether one must wait until a girl is "three years plus a day" old before it's appropriate to use her for sexual intercourse. In fact, I am told by those who should know that the Khazarian Mafia (and not only in The City of London) are Satanists who privately admit that Satan is their god.

However, it very much serves their purpose to be considered by Gentiles as one race or, in their fantasy, no race, and thus we have the deliberate, planned, and organised duplicity attempting to deny this separation. We have no trouble in finding multiple "official" genetic "studies", each as dishonest as the last, attempting to prove either that Khazaria has never existed or that Jews have no common DNA, or that Judaism is all one

religion which it patently is not. So, a Jew born in Germany is really a pure genetic German who just happens to adhere to the Judaic religion and, if that person instead adopts Christianity, he is no longer a Jew. But since there is no such thing as race, he cannot be a pure ethnic German and is therefore nothing. Yet German Jews identify as Jews, not as ethnic Germans. If that doesn't serve to complicate the picture irrevocably, I don't know what would.

## Listings by Government Department

The sections below contain lists of Jews in the US government, denoting the positions held, and sorted by government department. The lists are far from complete. The allocation to Department is occasionally arbitrary. Note that some names are repeated, occasionally several times, because some individuals have held positions in different Departments or in several administrations at different times.

## Methodology

Of the nearly 1,000 names in the lists below, all but a few were drawn from Jewish websites, mostly boasting of the control and influence Jews now have over the US government. Each of the names contains a live link to a Jewish source confirming that person's identity as a Jew. Bulk references are also included at the end of this essay. **No persons have been included if their Jewish ethnicity were not confirmed** by either a Jewish publication, a reputable (also Jewish) media source like the NYT or Washington Post, an NGO or think-tank, or a US government website.

Referring again to the censorship of Jewish names, while preparing the lists for inclusion in this essay, I was surprised to discover literally hundreds of individuals holding prominent positions in the US government, individuals who are obviously Jews from their names, activities and associations, and whose biographies appear on Jewish websites, yet which all of the sources avoided specifically identifying as

Jews. Thus, **there are many more hundreds of Jews who should be included in the following lists, but are not**, people with names such as:

Aaronson, Abelman, Apfel, Appelbaum, Cohen, Eisner, Epstein, Fleischman, Glaser, Goldstein, Goldwyn, Green, Greenburg, Greenstein, Heymann, Kleinman, Laub, Loeb, Leibowitz, Libin, Miller, Paster, Posner, Rappaport, Render, Roisman, Rosenthal, Ross, Schapiro, Shapiro, Sherman, Shier, Silber, Silberman, Silverberg, Spector, Spiegel, Susskind, Taubman, Weiner, Weisberger.

## **Part 1 - Control of the President**

### **Presidential Baby-Sitters**

Despite the apparently flippant heading, this is a crucial category. To explain properly, we need a comparison.

I have been a senior executive in international consulting firms. I obtained those positions through merit. I was a professional in the industry and I knew the job very well. I was competent and able and had the necessary knowledge and experience. I deserved to fill those positions. I am not indulging in self-praise here; I am trying to make an important point, as you will see in a moment.

From my earliest days as a Head of Office, I said to all prospective new hires, "This is where we are going, and how we are going to get there. If you want to participate in this voyage and are willing to commit yourself to the destination, you are welcome to come aboard. If not, you are looking for a job in the wrong place." The point is that I had a mission, and their job, if hired, was to help me fulfill that mission. I had assistants of course, and advisors or sources of advice, but they didn't tell me what to do; I told them what to do. **The most important thing is that my staff, assistants, and advisors did not have their own agenda.** They were hired to help fulfill my agenda, not theirs. If any of them became politically or otherwise ambitious and tried to influence my thinking or actions to match their agenda, they would soon be gone.

Nobody wrote my speeches or articles for me. If I wanted to give a talk, only I knew what I wanted to say and how I wanted to say it. While I was always open to ideas, nobody told me what to think, or how to think. I set my own routine and planned my own activities hour by hour throughout the day. Except for my personal secretary, there were no "gate-keepers". I established our priorities according to the needs of the mission, and my staff followed through on those. I had superiors of course but, aside from general guidance, their only job was to give me the tools to accomplish my mission. All of the above can be filed under the heading of "Leadership".

Now let's contrast this with the election of a President in a democracy like the United States. First, no one in recent memory who has filled that position did so on merit. No candidate was qualified in the least to be the CEO of such a huge country. None had the knowledge, the experience, the education, or the intelligence to do so - my points amply illustrated by the examples of Ronald Reagan, George Bush, Joe Biden and others. And we won't even bother to discuss qualifications of character or morality. It would help you to read one of the Chapters in my E-book series on Democracy, specifically Chapter 5 on Choosing Government

Leaders.**[56]** It will tell you things you don't know, and will help to open your eyes and waken you.

In a typical US Presidential election, it is a naïve fallacy to imagine that the candidates, being fully qualified and capable, decided on their own to pursue that appointment and planned their campaign. They were neither qualified nor capable, and did not choose. Instead, they were chosen. Even worse, they were chosen primarily because they were neither qualified nor capable. In fact, **the primary feature of a "democracy" is that the more ignorant and unqualified a person, the more attractive he is as a candidate.** I will explain.

Presidential candidates are not selected off the shelf at the moment of election. They will have been groomed for years, sometimes for decades, in case they are needed to fill this position. Obama was "mentored" by Jews, mostly radical Zionists, for about 20 years before he was deemed ready to be a Presidential candidate. **The Jewish Kingmakers in the political parties will select an appropriate candidate and have him nominated.** From this point on, the future is fixed. No person campaigning for the Presidency of the US (at least for the first time) has any idea about conducting a campaign or what is necessary to win an election. But no problem; the Kingmakers have been here before. They take complete charge of the election campaign, they design all the strategy, they obtain all the funding, arrange for all the media coverage and photo-ops. **The Presidential candidate is an ignorant observer in this process.** He is riding on a very powerful train, but he is not the engineer; he is merely a passenger. He is told where to go, and when. All his speeches are written for him. He is told what to say and when and how to say it. He is also told what he must never say.

With luck, our candidate is elected, and he suddenly finds himself in the Oval Office of the White House as the President of the United States of America. Given his lack of credentials, the only thought in his mind is one of despair: "Oh my God. What do I do now?"

But that's not a problem because the (Jewish) Kingmakers have already handed off the puppet to his (Jewish) handlers and baby-sitters. "Mr. President, the first thing you must do is to appoint a cabinet. We have suggestions prepared here for all positions. Also, you will need Assistants,

Advisors, Counsel, and Staff Managers; we have suggestions prepared here for all these positions as well." You can already see where this is going. Few US Presidents in the past 75 years have personally chosen their cabinet members or staff; it is almost all done by the handlers.

The salient point in all of this is that the Kingmakers in the parties (primarily Jewish), the handlers, baby-sitters, assistants, advisors, counsel, staff (also primarily Jewish) are in charge. The selections they offer to fill all important positions have been carefully vetted for compatibility with the Jews' agenda. **It is a matter of public record that anyone who has ever expressed in the past the slightest antipathy for the Jews or Israel or the Zionist agenda, will be publicly smeared as an "anti-Semite" and therefore unsuitable for all but laundry and janitorial positions.** I am not aware of any prospective appointee who has passed this test.

The President's White House staff are his immediate managers. They are his gate-keepers. They decide who speaks to him and on what subjects. They control the paper flow and all the information. Nothing reaches the President without first going through their hands and obtaining their approval. The President's speeches are programmed, and written by his appointed speech-writers. Even brief comments are made from a teleprompter. Everything is micro-managed. It is true the President will have free time, but generally only when he is isolated and can't cause trouble.

This is not fantasy. There is a multitude of articles, documents, information easily available on the power of the White House staff over the President. One article claims that " Good White House Chiefs of Staff Have Made Presidencies".[\[57\]](#) The Smithsonian claims more modestly that they "help the President to govern".[\[58\]](#) The Jerusalem Post, in an article on the 50 Most Influential Jews in the world,[\[59\]](#) [\[60\]](#) put the Jew Ron Klain, the White House Chief of Staff, at number 16, stating that all of COVID-19 (and everything else) first "goes through Ron Klain", calling him "Joe Biden's alter ego". When James Baker was Regan's Chief of Staff, he stationed Richard Darman (a Jew) right outside the Oval Office where "**he controlled all the President's paper flow, and with it, much of the Federal government**". Darman is quoted as saying, "**Reagan's IN box was my outbox, and vice-versa.**"[\[61\]](#) The New York Post ran an article headlined, "The man in charge at the White House isn't Joe Biden".[\[62\]](#)

If you were paying attention during the initial COVID scene, you may recall the TV briefing where Mike Pompeo stated that they were running COVID as "a live exercise", with Donald Trump – the US PRESIDENT – hovering at Pompeo's side like a waiter, and mumbling "I wish you would have told us".[\[63\]](#) You can still see a video clip of it.[\[64\]](#) It was obvious Trump had no idea what was going on, because the gate-keepers failed to tell him what they deemed he didn't need to know. Or what they didn't want him to know.

In fact, **the White House Chief of Staff is the ultimate power broker**, the man who decides who can see the President of the US and who cannot. Or whose telephone calls will be put through or whose letters will be delivered. When H.R. Haldeman was Chief of Staff, his single most important concern was that no one could do an "end-run" around him, that there would never be "private meetings between an agenda-driven individual and the president". Haldeman's order to the entire White House staff: "That is the principal occupation of 98% of the people in the bureaucracy. Do not permit anyone to end-run you or any of the rest of us. Don't become a source of end-running yourself, or we'll miss you at the White House."[\[65\]](#) As a point of interest, it should be clearly understood that the President has no way to know of the people and information that have been blocked. He is entirely at the mercy of his handlers and baby-sitters, virtually all of whom were hand-picked by the King-makers and selected primarily for (1) their controllability and (2) their commitment to the Jews' agenda.

## **Coddling the "Victims"**

Unlike any other government, the White House has created many unique positions just to keep in touch with all its handlers at AIPAC and the ADL, the Israeli Embassy, and The City of London, with a Special White House Liaison to the Jewish Community, an even more special "Liaison with Jewish Leaders", and we even have a "Special Envoy for US Holocaust Survivor Services".

Sadly, the White House has no special liaison for survivors of Vietnam, Yugoslavia, Iraq or Libya, and none for the few civilians who escaped the CIA's death squads in Central and South America. And it goes without saying there is no "Special Liaison" for either Muslim leaders or survivors of the atrocities in Palestine. And of course, there are no "special liaisons" or an "outreach program" for American Chinese or Russians to offset the hate campaigns being conducted against these peoples in the Jewish media.

## **Setting the Budget - Assuring Adherence to the Jews' Spending Priorities**

"The Office of Management and Budget (OMB) is the largest office within the executive branch of the U.S. federal government. The OMB is tasked with implementing the commitments and priorities of the US Government." The OMB oversees the federal budget and its implementation. It also determines the overall economic policy of the country, and ensures the constantly-increasing military budgets to ensure that "The Bankers' Private Army" will always be in a position of assumed superiority – without which the Khazar Jews in The City of London cannot accomplish their worldwide ambitions.

## **Part 4 - Control of the Money**

Next, we have control of the currency, the money supply, and thus the economy, through the Federal Reserve and the Treasury Department.

## **The Jewish-owned (Rothschild et al) US FEDERAL RESERVE**

When discussing “control of the money”, we can’t ignore the fact that **the US FED is a private Central Bank owned by one of the Rothschilds and other Jewish European banking families in The City of London.** And through this ownership, they have total control of the US currency and the US economy, including the money supply, interest rates, the values of the stock and bond markets, the housing market, and much more. It is their application of this control which creates all the economic booms and busts, like the 1929 crash and subsequent depression, the 2008 “financial meltdown”, and all the others. You may enjoy reading this related article as a reference: “Let’s Have a Financial Crisis: First, We Need a Central Bank.”[\*\*\[66\]\*\*](#)

**For the record, the ultimate beneficial owners of the US Federal Reserve have been reliably documented as follows: the Jewish owners of the Rothschild Banks of London and Berlin, the Warburg Banks of Hamburg and Amsterdam, Lehman Brothers of New York, Lazard Brothers of Paris, Kuhn Loeb Bank of New York, Israel Moses Seif Banks of Italy, Goldman Sachs and the Chase Manhattan Bank.**

## **Part 6 - Control of Health, Education and Welfare**

### **CDC, NIH, HHS**

This category helps to ensure that the US will never have a universal health care system like all other civilised nations, and will also ensure that privately-owned health care facilities (Jewish-owned in very large part) can continue to loot the public while selected citizens lacking a VISA card die in the parking lot. It is this group that forced through the legislation prohibiting the US government from negotiating volume discounts for its multi-billion-dollar annual expense on medications. In this section of the economy, as in no other, "privatisation" is paramount.

### **Control of COVID and vaccines**

I am by no means the first, nor the only, person who noticed that COVID-19 was firmly under the control of the Jewish-dominated US health services, which category includes the vaccine manufacturers.

COVID-19, based on circumstantial evidence alone, had to have been a Jewish program. The most damning evidence is the one that is most obvious - the mass media which worldwide is almost entirely controlled by Jews. The entire Western media and also in much of the rest of the world, were all onside, pushing precisely the same agenda, with the same daily floods of doomsday news, of magnificent falsehoods, tales of death and depression everywhere, with the psychological manipulation for which these people are famous, and the intense push to manipulate everyone to accept the genetic spike injections disguised as vaccines.

There is no Gentile organisation anywhere with the power to assemble and energise the Jewish media as a group to do anything, and certainly nothing of this scale. Logic alone tells us this had to be a Jewish agenda. There is no other possibility that fits all the facts. As others have noted, a "normal" epidemic does not require all the media to flood every nation with doomsday reports 24/7, especially not from a mild pathogen. But a propaganda campaign does require it, especially if the underlying purpose is the vaccinations.

Also, the major pharmaceutical companies are all Jewish, and certainly the makers of the vaccines. A Rothschild owns the huge conglomerate Sanofi, the world's largest vaccine manufacturer, and both Pfizer and Moderna are Jewish companies. As well, the largest apparent shareholders of Pfizer, Moderna and Gilead stock are Blackrock, Blackstone, and Vanguard, themselves Jewish companies. I use the word "apparent" because often shares are held in trust for the actual beneficial owners to shield them from public scrutiny.

## **Part 7 - Control of Justice and Injustice**

### **The US Justice Department**

Jews holding senior positions in the US Justice Department do the normal things you might expect, enforcing laws, issuing judgments, and so on, but they also do things you wouldn't expect - or even imagine. One such activity already mentioned, and almost certainly coordinated from The City of London is the joint proselytising of new gender and sexual norms and obtaining judicial sanctions for them.

But there are many other activities, all done covertly, that are in no way American government policy but are instead the furthering of the Jewish (Khazar Mafia) agenda. One such is the continued persecution of Germans. For more than a decade the Jew **Neal Sher** headed the Office of Special Investigations (OSI), which was the US Justice Department's "**Nazi prosecution unit**", where he "oversaw the denaturalization and deportation of dozens of onetime Nazi war criminals."[\[67\]](#) "Denaturalization" is the stripping of a person's citizenship, effectively leaving them stateless. This is something these Jews apparently intend to continue in perpetuity.

It is not the American government who has a "Nazi prosecution unit"; it is the Jews who have a "German persecution unit". It is they who will persecute Germans and Germany in perpetuity, and who had this department created in 1979 to "identify and expel from the United States, those who assisted Nazis in persecuting "any person because of race, religion, national origin, or political opinion (i.e., Jews)." [\[68\]](#) In other words, hunt down, strip of citizenship, and deport any German who in the past 75 years might have indicated the slightest possible disaffection for Jews. This is not about hunting "Nazis" or "war criminals"; it is entirely about retaliation for what is very loosely termed "anti-Semitism" by destroying the lives of any and all suspects, and by intimidating everyone else into submission.

Neal prepared a 200+ page "report" on UN Secretary-General Kurt Waldheim,[\[69\]](#) and placed him on a "watch list" of persons no longer able to enter the US, for the crime of being German. Sher was also the head of an international Holocaust restitution commission which sought to also continue to loot Germans and Germany in perpetuity for crimes their ancestors may or may not have committed, and pursued those activities through the US Justice Department. Sher was eventually banned and disbarred for theft of funds,[\[70\]](#) but that didn't negate his persecution of Germans.

Eli Rosenbaum was another Jew holding the same position as Sher.[\[71\]](#) According to Wikipedia, Rosenbaum was "a legendary Nazi hunter", hardly an American interest 75 years after the events. But in fact, the creation of the Office of Special Investigations in the US Justice Department was entirely a Jewish construct for the purpose of "identifying, denaturalizing, and deporting" almost any German they could find in the US.[\[72\]](#)

Too obvious to mention but too important to be ignored is that not everyone German was a "Nazi" and not every Nazi was a "war criminal", not even an imaginary one. The Jews apparently fail to make these distinctions. This is one place where historians deliberately mislead us; a "Nazi" was simply a member of Germany's National Socialist German Workers' Party, not different from an ordinary citizen being a member of a Liberal or Conservative political party in any country. But the term has been appropriated by the Jews and re-defined as "evil incarnate" when it was absolutely no such thing.

It is also noteworthy that, during a war, most citizens of all countries will be at least partially sympathetic to their government. That is not a crime, certainly not one justifying "identifying, denaturalizing, and deporting" all the citizens. But if the Jews are correct and justified in this, then how do they account for the hundred years of opium in China, which was entirely a Jewish operation? Surely if all Germans are guilty in perpetuity of being "Nazis" and "war criminals", even third-generation descendants, then surely all Jews are guilty in perpetuity of being drug dealers and mass murderers, and all Jews should likewise be subject to "identifying, denaturalizing, and deporting".

These people, once in position, have the power - and the will - to search out and identify anyone of German heritage who might in the past have said or done anything that could be construed as "anti-Semitic", strip them of their nationality, relieve them of their assets, and deport them. This Department functions as the worst kind of gangster.

The US foreign Embassy staff also, with the assistance of the Israeli Embassy and Consulate staff in other nations, assembles lists of anyone they can categorise as "anti-Semitic" and prevent their entrance into the

US and, if possible, preventing their flying on any airline anywhere. If they can do it to someone as high as Kurt Waldheim, they can do it to anyone. And you will never know, because the Jewish-controlled media would never touch such stories. This happens more often than you might imagine. Who do you think is on the US "no-fly" list with its one million names? Terrorists? There aren't that many terrorists in the entire world. And why do you suppose the US refuses to divulge the names on that no-fly list or the purpose of their inclusion? It isn't for reasons of "national security" but to obscure the Jews' agenda. And they don't need proof to present to the public, if the public becomes aware of it. All that is necessary is to tar those individuals with labels like "Nazi", "anti-Semitic", "domestic terrorist", "white supremacist", and that will justify their actions. Nobody will be demanding evidence to defend undesirables. It is so easy.

As an aside, the US no-fly list has been hacked and the names revealed. The article states there are "very clear trends towards almost exclusively Arabic and Russian-sounding names throughout the million entries".[\[73\]](#) You may draw whatever conclusions you deem appropriate.

## **Part 8 - Control of US Global Hegemony Strategy**

**The US National Security Council**

"The United States National Security Council (NSC)[\[74\]](#) is the principal forum used by the president of the United States for consideration of national security, military, and foreign policy matters. Based in the White House, it is part of the Executive Office of the President of the United States, and composed of senior national security advisors and Cabinet officials."

"Since its inception in 1947 by President Harry S. Truman, the function of the Council has been to advise and assist the president on national security and foreign policies. It also serves as the president's principal arm for coordinating these policies among various government agencies. The Council has subsequently played a key role in most major events in U.S. foreign policy, from the Korean War to the War on Terror."

However, it should be noted that the US has no particular security issues. This Department functions mostly to remove the security of other nations, most particularly the disobedient ones. But perhaps its primary purpose is the "security of Israel", preventing Jewish atrocities emanating from Tel Aviv in resulting in attacks on that nation by victimised Arab states.

This department carries responsibility for the identification (and crushing) of domestic “terrorists”, i.e., anyone objecting to US domestic policies or disbelieving the official story on anything. Part of this program involved hiring Craft International to provide snipers to kill the leaders of the “Occupy Wall Street” protests - a contract the FBI and CIA did not deny.[\[75\]](#) [\[76\]](#) [\[77\]](#)

## **International Bullying Under the Guise of Democracy**

The NED (National Endowment for Democracy) is essentially a "Color Revolution" company, specialising in the infiltration and overthrow of governments. China's 1989 Tiananmen Square protests were by the end entirely under the control of the NED and the CIA.[\[78\]](#) Similarly, USAID is not at all as presented, nor as the general public perceive it to be. I would estimate that 80% of its activities are criminal and anti-human. It appears to be primarily a tool of the Jewish determination for population control and reduction. In one celebrated case, the US refused food and other aid to India during a famine until the Indian Government agreed to permit USAID to open centers to sterilise local women.[\[79\]](#) [\[80\]](#) [\[81\]](#) [\[82\]](#) If I recall correctly, about 50,000 locations were set up in India to forcibly sterilise women. Countless victims died. If any of this is news to you, you really should read this article "The Pleasures of Depopulating the Earth"[\[83\]](#)

The Voice of America is of course merely a propaganda machine, and Human Rights Watch watches all human rights atrocities except those committed by the Americans everywhere and Jews especially in Palestine, all on direction from The City of London.

### **Intelligence and Espionage**

From an earlier essay on The City of London:[\[84\]](#) I have a copy of a document that was released by the CIA under a FOIA request. It is not a CIA document and it is not clear why it would have been in the possession of the CIA. The document is not redacted, but the original author is not identified. The salient point of this document indicates the existence of a group somewhere within the CIA that operates independently, acting under the auspices and authority of the CIA but with its own purpose and agenda unrelated to the remainder of the organisation. The document maddeningly lacks precise details but the implication is that this group does not report to any part of the CIA and that its activities may not even be known by the CIA executive. I had read of, or heard rumors about, such a group before, but this was the first bit of documented evidence of it.

Edward Snowden, in an article titled "The CIA is not your friend",[\[85\]](#) made reference to this as well. He wrote that after the creation of the CIA, "Within a year, the young agency had already slipped the leash of its intended role of intelligence collection and analysis to establish a covert operations division. Within a decade, the CIA was directing the coverage of American news organizations, overthrowing democratically elected governments (at times merely to benefit a favored corporation), establishing propaganda outfits to manipulate public sentiment, launching a long-running series of mind-control experiments on unwitting human subjects . . . and interfering with foreign elections."[\[86\]](#)

## **Part 10 - Defense Department. Control of Bullying, War, Plundering**

Following this, we have the Military, mostly to put into motion the Jewish State Department's plans for war, plundering, removing disobedient national leaders by assassination to free their nations for open plundering.

It should be noted that the US "Defense Department" is in no way related to anything that might be considered "defense". There is no one who is seriously (except in imagination) contemplating attacking the US or any part of it. The US Defense Department should be re-christened "American

Department of Military Aggression". John F. Kennedy was famous for stating that "As the world knows, the US will never start a war", leading us to believe that the approximately 200 wars the US has launched against scores of nations were in "self-defense" where all those nations from Haiti and Nicaragua to Iraq and Libya attacked the US first and the Americans were "just defending themselves". In this context it should be noted that in its approximately 245 years as a nation, the US has been at war for approximately 235 of those years. If this doesn't make Americans a "victim of foreign aggression", I don't know what would.'

## Part 11 - Control of the World

### The US State Department

First, the official version:

"The United States Department of State is an executive department of the federal government responsible for the country's foreign policy and relations. Equivalent to the ministry of foreign affairs of other nations, its primary duties are advising the US president on international relations, administering diplomatic missions, negotiating international treaties and agreements, and representing the US at the United Nations."[\[87\]](#)

The State Department actually does all of those things, but the official statement contains one huge lie - the part about these activities being its "primary duties". There is little point in disputing the assertion that the primary activities of the State Department are: **the overthrow of governments** (Ukraine, Venezuela et al); the use of "diplomacy" to **bring nations to the point of revolution or war**; to cooperate with Gene Sharp at Harvard's Einstein Institute to **foster Color Revolutions**; to **bully nations into accepting US hegemony**, US military bases and US bio-warfare labs; to **threaten and bully nations to hate** Russia, China and Iran; to **bully international corporations** to refuse to do business with disfavored countries; to **arrange financial sanctions** and other punishment for disobedient countries; to **further the financial interests of American and Jewish multinationals** in other countries; to generally **further the interests of Israel** and the international agenda of the Khazar Mafia Jews in The City of London.

This again is not fantasy. Think of the overthrow of the legitimate government of the Ukraine in 2014, to be replaced by a Jew who would foster a war with Russia. It was a Jew, **Victoria Nuland** in the US State Department, running that entire show. Think of the stillborn attempted **"Jasmine Revolution"** in China, where calls "mysteriously" flooded the social media in the US and China, asking all Chinese to gather at specified points in all major cities to protest against their "dictatorial government". It was a Jew, **Jared Cohen**, from the US State Department who spear-

headed that effort. The idea wasn't his, but the execution was. I could list 25 other such efforts. Remember also that it was another Jew, **Madeleine Albright** as US Secretary of State, who crafted the 78-day bombing of Serbia - the longest bombing campaign in the history of the world. Remember too that it was Madeleine Albright who engineered the destruction of Iraq's water infrastructure. For this, Albright earned fame as **the world's most prolific baby-killer**, this deranged psychopath directly responsible for the deaths of more than 500,000 infants in Iraq, and who then said "Yes, it was worth it"; – for which Obama awarded her the Presidential Medal of Freedom, the highest civilian award of the United States.

It was Jews like Madeleine Albright with Yugoslavia and Iraq, Henry Kissinger with Vietnam, and Paul Wolfowitz with Iraq, who used the power and influence of their positions to drive US foreign policy where they and their handlers wanted it to go. **Kissinger** helped create and supervised all the US atrocities in Vietnam and many in Central and South America. **Wolfowitz** was an extreme hawk on Iraq and was apparently pushing to invade a few days after 9-11, using that as an excuse. These don't exactly fit into "administering diplomatic missions" and "negotiating international agreements".

There is on record an interesting message exchange from **Henry Kissinger** when he was US Secretary of State. **David Popper** was the Jewish Ambassador to Chile during the reign of Pinochet after the US State Department executed the overthrew the democratically elected president Salvador Allende and Pinochet launched his volley of atrocities against his own people. Popper was human enough to communicate his concerns about the atrocities to the State Department. Kissinger replied with an indirect message to the Embassy that said, "Tell Popper to cut out the political science lectures".[\[88\]](#) That also doesn't fit with creating good relations and working for peace.

The US State Department is also permanently involved in persecuting little Cuba, in retribution for Castro's expulsion of all the Jews after the revolution. One article from the **Voice of America** was titled, "Blocking Cuba's Regime from Exploiting Cuban People".[\[89\]](#) That was interesting, since the sanctions the US has continuously applied to Cuba for the past 70 years has condemned that little country to abject poverty, lack of medicines and technology, and general misery, not to mention the 638 fumbled attempts to kill Castro.[\[90\]](#) [\[91\]](#) This wouldn't seem, at least

on the surface, to support the thesis that the US State Department is much concerned about "Exploiting Cuban People".

In a similar vein, you may be aware that the US State Department and Military installed and supported Anastasio Somoza and his family as brutal dictators of Nicaragua. It is interesting that when I do a search for "dictators of Nicaragua", Google and Bing headline the results with articles on Daniel Ortega – the man who overthrew the US-backed Somozas and held free elections. It seems that one man's freedom fighter is another man's terrorist (or dictator). In response, the US State Department levied the most brutal sanctions possible on that little country, so savage that living standards reportedly decreased by about 90%. The State Department then told Ortega his country would return to normal in an instant if only he would resign and hold elections with two US-selected individuals as the only candidates. Ortega had no choice. Wikipedia's article on this event told us "Nicaragua had held its first democratic elections ousting the [Ortega] dictatorship",[\[92\]](#) apparently confusing Ortega with Somoza. However, not to lose the main point which is that, when we look past the propaganda and psycho-babble **this is the typical daily activity of the US State Department in real life.**

There seems little reason to doubt that the US Department of State receives its marching orders from The City of London, since most of its activities are of little or no benefit to the US but of huge benefit to Israel and the Jewish agenda. Remember that the State Department is in control of all foreign affairs, almost everything not domestic, at least until they can turn over their projects to the US Military for a final conclusion. From the list below, you can see that this critical Department is overwhelmingly Jewish, and thus responsible for virtually all the world's serious political troubles. And this is by no means the first time. You may care to read "The Cause of World Unrest"[\[93\]](#) by Howell Arthur Gwynne, the Editor of London's Morning Post, written in 1920. Nothing has changed since then.

It doesn't appear to be a secret any longer that the Khazar (so-called) Jews in The City of London want to start World War III to complete their plans.[\[94\]](#) The purpose is to finally destroy Russia, China,[\[95\]](#) and Iran, to remove the final obstacles to their fantasy of a Jewish One-World government, and this is being done in exactly the same way as they engineered the first two World Wars.[\[96\]](#) [\[97\]](#) [\[98\]](#) All that is occurring today with Russia, China, and Iran, is entirely Jewish policies emanating from this source. All the provocations being made today by the US State

Department and Military are directed by the Jews who totally control the US State Department.

There is something else the US State Department does, that you might have suspected, but had no concrete information: employing the benefits of diplomatic privilege and using the staff of its Embassies and Consulates, it spies on the host countries. You might enjoy reading this: "If You Do It, it's Spying. If I Do It, it's Research".[\[99\]](#) Much of this activity involves identifying Americans working in China and various disaffected Chinese grunts who might be willing "gather research" for the US government. This costs money, which must be paid in cash and paid "under the table". How to finance this?

In a sample year (2014) the American consulates in China received about 1.8 million visa applications from Chinese citizens,[\[100\]](#) mostly for studying or tourism. The US Embassy and consulates charged a non-refundable fee of 1,000 RMB (about \$150) for each application, with a stipulation that the fee be paid only in cash. To save you the math, that's about US\$270 million that totally by-passes the banking system and is available for black ops.

The US Embassy in Beijing, suffering from repeated attacks for this policy, attempted some damage control by inserting a new page on their website assuring Chinese that they didn't really need cash for their black operations, evidenced by the fact that they suddenly would also accept credit cards – VISA, MasterCard, AMEX and Diners Club. That was cute. The number of Chinese holding AMEX or Diners Club cards would be about the same as the number of Americans holding credit cards from the Bank of China – in other words, approximately zero. Why didn't the US Embassy in Beijing accept Chinese credit cards? Because they really did need the cash for their black operations.

You really need to read this article about Pfizer: "Pfizer's Perfectly-Timed Epidemic".[\[100a\]](#) These are the same people who produced the bulk of the COVID-19 "vaccines". I won't provide much detail here, but basically Pfizer created a new meningitis drug that the FDA refused to approve due to its severe dangers, so Pfizer took it to Nigeria where a sudden meningitis outbreak occurred (very possibly caused by the WHO). Pfizer apparently forged letters of authority and backdated them to a date prior

to their "trial". They also lied about obtaining parental approvals to administer an experimental drug to small children, the use of which not only left many children dead but others with brain damage, paralysis or slurred speech. Nigeria filed multiple lawsuits and Pfizer eventually agreed to pay \$75m in damages and to create a fund of \$35m to compensate the victims.

But Pfizer resorted to extortion and blackmail of Nigerian government officials in attempts to avoid making any payments to the families of the tiny victims of its illegal drug trial. The UK Guardian reported that leaked US government diplomatic cables revealed that "Pfizer hired investigators to look for evidence of corruption against the Nigerian attorney general in an effort to persuade him to drop the legal action", **with the apparent full knowledge and assistance of the US State Department**. Not only that, but when Nigeria attempted to file lawsuits in the US, the American courts oddly claimed they had "no jurisdiction" to handle such claims. This isn't the first time the US government, the State Department and the US courts have circled the wagons to protect a Jewish multinational. And, as almost always occurs, the Jews had articles published to tell us that "the Nigerian government's motives (in condemning Pfizer) have been questioned".**[100b]** So now it isn't a matter of a Jewish company deliberately risking lives and killing small (non-Jewish) children, but a government with questionable motives. And thus do these Jews always manage to twist the story and blame the victim. But again not to lose the main point which is that protecting Jewish multi-nationals worldwide is one of the main functions of the US State Department.

### **America's Jewish Ambassadors**

Of course, a Jewish State Department cannot function in an international vacuum and, just as with the military, they require "boots on the ground" in many countries.

First, the official version: "The primary role of an ambassador is to establish and maintain diplomatic relations between the two countries, facilitate trade and commerce, and promote cultural and educational exchange programs."

According to Wikipedia, "One of the cornerstones of foreign diplomatic missions (Embassies) is to work for peace". I laughed out loud when I saw that. The reality is somewhat different. US embassies are famous around the world, not for peace or good relations, but primarily for their "greedy bullying" of all other nations, friends and enemies alike. An important reality is that Ambassador positions seldom are given to professional or career diplomats; most are the result of bribery, usually through campaign contributions but sometimes directly, and to Jews in very large numbers.[\*\*\[101\]\*\*](#)

Aside from all the violence engineered by the State Department and heavily supported by US Embassies, American Embassies and Consulates engage in many other activities, not exactly "diplomatic", and which might not occur to you. All of these are part of the Jewish agenda and fulfilling Jewish interests.

For example, **Madeleine Kunin**, the Jewish US Ambassador to Switzerland, was not spending her time establishing good relations or making peace, but was instead "doggedly pursuing the Swiss on the issue of gold for holocaust survivors".[\[102\]](#) That wouldn't seem to fit into the proper activities or agenda for an American diplomat.

In a similar example, **Paul Packer** was the Chairman of the Commission for the Preservation of America's Heritage Abroad. That sounds good, except that Packer worked very closely with various Jewish US Ambassadors on things other than peace, friendship, and American heritage. According to the Jerusalem Post, Packer spent three years pressuring various countries to "preserve Jewish heritage sites within their borders", things like resurrecting and renovating ancient Jewish cemetaries. He also spent those years pressuring Eastern European countries to adopt "Holocaust studies curricula" in their schools. And he most especially pressured them to adopt the Jews' definition of "anti-Semitism" which is that anything anti-Israel, anti-Zionist, or anti-human-atrocity constitutes "veiled antisemitism".[\[103\]](#) These also don't seem representative of the normal functions of American Embassies, nor is it immediately apparent how these activities are in the US interest.

There are other similar activities not apparently fitting into the function of a US Embassy. One such is the apparently perpetual looting of artwork in Germany on the basis that those artworks "must have" belonged to Jews at some time in the past and therefore must be returned. A German man had a collection of around 1,500 pieces of art which the Jews discovered recently.[\[104\]](#) Their approach, heavily supported by the US State Department,[\[105\]](#) [\[106\]](#) was essentially that if the man cannot irrefutably prove that all those artworks had never belonged to a Jew, they would all be confiscated and given to German Jews or, if no proper recipients could be located, they would be placed in a Jewish museum. This also doesn't seem to fit the proper activities of a US Embassy.

There is very much more. Brazil is the largest country in South America with a powerful economy, and Jews have large investments there. The main function of the US Embassy in Brazil is to protect those investments. The State Department will tell us they are "protecting American interests", but that is an outright lie. Similarly, Bolivia and various African states are blessed with natural resources vital to many industries like arms manufacturing and which are primarily owned by Jews. The US Embassies and their Jewish Ambassadors in this case do function to negotiate and obtain agreements.

The US foreign missions in South Africa, Belgium and Holland are closely related because Jews control all the gold and diamond mining in South Africa, as well as controlling the ruling government party, and Belgium and Holland are diamond capitals of the world, as is Israel. The US Embassies work closely together to ensure a continuation of this happiness. They would seem to have succeeded only in part. I received this message from a reader in South Africa:

Hello Mr. Romanoff.

My name is ----- I am 71 years old and was born in South Africa in the "Apartheid era" Have been a research scientist but with an intense interest in international politics. So here go.

In South Africa a different agenda was used by the City of London by vilifying the first world white controlled country with "Apartheid" scam. Today my country is captured by controlled so called black leaders and all institutions are systematically being destroyed except the mines of critical and Jewish enterprises like De Beers and Anglo America (That are held by De Beers.) The rail system was decimated except the high-speed rail system running from critical ore mines to the harbors. All law and order have been destroyed and the court system is a joke. Electricity supply is on its knees with all the knock-on effects like water treatment and health care. The whole place is falling apart except mines like platinum, diamonds, chrome etc. with the bought politicians as junior directors to smooth the process. This is different from your "Spreading Democracy, the American Way" [107] but worked just as well. So, this was the power hub in the City Of London's way of getting to the same results.

Yours

Dr. -----, BSc, MSc, MCB, PhD

The US Ambassadors are also active in distributing American "aid" to foreign countries, for example Egypt. The word on the street is that American aid is used to purchase an exemption of hostility to Israel as part of American diplomacy. They are also used to bully nations into accepting US military bases, US biological warfare labs, and to ensure total immunity for Americans in all other nations by making Americans exempt from all the domestic laws of other nations.

As with the list of Jewish names in the US State Department, you can see that the list of Jews in US Embassies is also extraordinary for a race of people forming little over 1% of the US population.

The appointment of Jewish ambassadors is not a simple matter of racial nepotism. It is never done without a reason. They are selected to further the Jewish agenda either for the "victim" country or for a select group of Jews. In that position, they use the power of the US State Department to push all nations to build "Holocaust Museums", to campaign and exert pressure to relax abortion laws, to legalise sodomy, to campaign for increasing LGBTQ+ legislation, to increase immigration so as to pollute the national populations. They use it to exert pressure for the WHO's sterility vaccines. They are used politically to pressure foreign governments to adopt the Jewish agenda in multiple social policies.

**Most importantly, they also use the power of the US State Department to pressure all countries to make "anti-Semitism" illegal - as a felony crime.** What this means is that any expression of criticism of anything related to the Jews or Israel, will constitute a felony punishable by years in prison. This is not fantasy; the Jews in **Germany** recently floated proposed legislation where **any criticism of Israel or the Jews would be punished by "denaturalization"**: this means that anyone guilty of criticising the Jews would have his citizenship revoked, becoming a stateless person having his assets confiscated and then deported. This is beyond belief, yet the Jewish-owned media didn't even murmur at this revelation. And there is more: the Jewish media have been conducting hate campaigns against Russia, China and Iran for years, the media filled daily with vicious slander. The world should be asking why it is okay for the Jews to freely provoke hatred against other peoples and nations but where even mild criticism of the Jews will send a man to prison. Who is the victim here?

There are multiple commercial interests at work as well., like reducing spending on health care and opening the market to privately-owned Jewish hospitals and pave the way for the exorbitant profits of the (almost entirely) Jewish-owned pharmaceutical companies. The Embassies and Consulates will be used to further the reach of Jewish-owned multi-national corporations. A Jewish Ambassador friendly to Nestle will exert pressure on a government to relax the health regulations on artificial baby milk.

## **Part 12 - Control of Almost Everything Else**

And finally, a grab bag of executives who specialise in everything from flooding the nation with GM food to negotiating high profits and criminal immunity for the pharmaceutical industry, gutting social security, killing food stamps and, perhaps most importantly, ensuring the criminalisation of dissent and finding the money for DHS to buy its 3 billion bullets and staff its 800 internment camps. It is of course also responsible for gutting the education system, killing medical care, bullying other UN members into submission and deciding which political or anti-capitalist actions should be criminalised and prosecuted. This group cuts a very large swath through all of American society. Little remains untouched.

## Part 14 - Jews in State and Municipal Governments

**The above data represent only the US Federal Government.** We could make very long lists of current and former State Governors and members of State Senates and Legislatures, as well as members of the bureaucracy controlling policy at all levels of municipal government, including local mayors and civic administrations.

### Jews in State Governments

Here is a brief listing of some Jews holding important executive positions in State governments: Governors or Lieutenant Governors, Attorneys General, Secretaries of State, Treasurers. This is a very abbreviated list, and these names again are only the apex of a Jewish pyramid. I am not providing separate links for these individuals, but Wikipedia and other Jewish websites have certified all these people as being Jews.[\[114\]](#)

Robert Abrams, Jerry Abramson, Richard Blumenthal, Buddy Caldwell, Jay Dardenne, Matthew Denn, Jerome Diamond, George Fingold, George Firestone, Lee Fisher, Brian Frosh, Doug Gansler, Deb Goldberg, Neil Goldschmidt, Josh Green, Eric Greitens, Jena Griswold, Steve Grossman, Ernest Gruening, Tom Horne, Richard Israel, Jacob Javits, Robert Jubelirer, Jason Kander, Oliver Koppell, Madeleine Kunin, Louis Lefkowitz, Frank Licht, Richard Licht, Joe Lieberman, Linda Lingle, Carlos Lopez-Cantera, Seth Magaziner, Josh Mandel, Marvin Mandel, Jack Markell, Deborah Markowitz, Nancy Mayer, Julius Michaelson, Jonathan Miller, Stanley Mosk, Dana Nessel, Sam Olens, Jeffrey Pine, Jared Polis, Deborah Poritz, Jay Pritzker, Stuart Rabner, Richard Ravitch, Ed Rendell, Abe Ribicoff, Ellen Rosenblum, Ken Rothman, Warren Rudman, Stephen Sachs, David Sampson, Brian Schatz, Josh Shapiro, Eric Schneiderman, Samuel Shapiro, Brian Schwalb, Dan Schwartz, Milton Shapp, Robert Shevin, Peter Shumlin, Eliot Spitzer, Josh Stein, Melvin Steinberg, Richard Stone, Bruce Sundlun, Phil Weiser, Harriett Woods, Nancy Wyman, David Zuckerman.

## **Part 15 - Some Jewish Mayors of American Cities**

Here again, this is a partial list obtained exclusively from Jewish sources, certifying these individuals as Jews.[\[115\]](#) [\[116\]](#) [\[117\]](#) [\[118\]](#) [\[119\]](#) [\[120\]](#)

Jerry Abramson, Steve Adler, Walt Bachrach, Abraham Beame, Andy Berke, Richard Berkley, Ethan Berkowitz, Bruce Blakeman, Michael Bloomberg, David Cicilline, Josh Cohen, Larry Cohen, Norm Coleman, Rahm Emanuel, Dianne Feinstein, Bob Filner, Lois Frankel, Sandra Freedman, Jeffrey Friedman, Jacob Frey, Steven Fulop, Eva Galambos, Eric Garcetti, Carolyn Goodman, Susan Golding, Neil Goldschmidt, Stephen Goldsmith, Oscar Goodman, Phil Gordon, Bill Gradison, Robert Harris, Adlene Harrison, Vera Katz, Ed Koch, Rick Kriseman, Joseph Lazarow, Henry Loeb, Sophie Masloff, Sam Massell, Laura Miller, Arthur Naftalin, Ron Nirenberg, Meyera Oberndorf, Ed Rendell, Jonathan Rothschild, Bernie Sanders, Kel Seliger, Libby Schaaf, Florence Shapiro, Paul Soglin, Jerry Springer, Sam Steiger, Darrell Steinberg, Annette Strauss, Miro Weinberger, Susan Weiner, Edward Zorinsky.

## **Epilogue**

From the listings, you can see the intense concentration of Jews in the White House. It is also apparent from the listing of Jewish liaison personnel that a small army of Jews have been conscripted to collect opinions and demands from various segments of the American Jewish population and to feed these directly to the gate-keepers in the White House and Cabinet. This quasi-department in fact functions as a powerful Jewish lobby group in direct and often daily contact with the President and other high-ranking officials. No other ethnic group has any such contact or influence. This group has been created on the false and fictitious presumptions that (1) Jews are "victims" and desperately need this special coddling and protection, and (2) that "anti-Semitism is rampant and Jews need protection emanating directly from the President.

The Jews' control of finance, money, debt, the treasury and the economy, as well as the US national budget itself, is also apparent from the listing. You can see the extensive control over national security and the espionage

areas, and the heavy concentration in all matters related to the use of the US military.

The most striking of all is the alarming concentration of Jews in the State Department which, working together with the military and the CIA, gives Jews a virtual stranglehold on the entire foreign policy of the United States. It is this that permits the Jews to perpetuate their atrocities in Palestine and to dream of a "Greater Israel" that will subjugate the entire Middle East as well as exterminating the original Arab population. It is this that permits Jews to use the US military to hijack Iraq and Libya and confiscate the oil of those nations without payment, on a permanent basis. If this is a surprise, you might care to read this: "Humanity at the Crossroads — Connecting the Dots to Our Brave New World".[\[121\]](#) It exposes the truth of Iraq and Libya in a way never done before.

The pervasive alien control of US domestic policies is sufficiently disturbing, but the most serious concern is in the area of foreign affairs where the Jewish bankers in the City of London are literally using the US military, espionage agencies, and the State Department as The Bankers Private Army to plunder and, in a sense, to enslave, the world. And so few seem to have any idea that this is occurring. This is the factor underlying the third World War which is now inevitable and could come at any time. It isn't the "Americans" who want World War III; it is the Jewish bankers in the City of London who need this final holocaust to fulfill their world agenda. They can do nothing by themselves; they need the powerful US as the puppet whose strings they control, to accomplish this for them. And they have the power to do it because all the significant parts of the US machine are firmly in their hands.

This last item below is included because it illustrates in a peculiarly dramatic way the utter contempt these Jews have for their puppet nation. This is what "American Democracy" has produced.

### **Christmas in the White House**

This serves to illustrate both the extent of Jewish content in the White House and the contempt these Jews hold for their Gentile servants – and for the Gentile Christian religion.

For the past numerous Christmases, it was reported that the White House had difficulty finding any Christians to erect and decorate the traditional Christmas tree. The Jewish Exponent wrote an article stating "There are uncounted dozens of Jewish White House staffers", adding that Ira Forman, director of the National Jewish Democratic organization, "tells of one Jewish staffer who balked at handling the White House Christmas decorations but was told he had to do it because everyone else here is Jewish too." Hyman Bookbinder, the former Washington representative of the American Jewish Committee, said "We've stopped counting the number of Jews in key places in the [US government] because there are so many of them."

A Jewish menorah is now part of the White House's "American-Christian" Christmas decorations, while Christmas trees, nativity scenes, and Christmas carols are increasingly forbidden in American schools because the Jews object to them.

Gary Aldrich was an FBI agent for 26 years who spent the latter part of his career investigating security clearances to White House staff during the George H. W. Bush and Bill Clinton administrations.[\[122\]](#) In 1996 he wrote a book titled "Unlimited Access: An FBI Agent Inside the Clinton White House".[\[123\]](#) [\[124\]](#) Aldrich and other authors including Besser, Gross and Matusow, have commented on the Christmas decorations at the "Christian" White House. It is instructive (and I will deal with this at length in another article) to understand the contempt that Jews hold for Christianity in general and Jesus Christ in particular.

In his book, Aldrich tells what it was like decorating Hilary Clinton's White House Christmas Tree, with ornaments created by various Jewish artists, featuring pornography, "sex toys and self-mutilation devices". Aldrich wrote, "I couldn't believe the disrespect that these ornaments represented. Many of the Jewish artists invited to make and send something to hang on the tree must have had nothing but disgust, hatred, and disrespect for the White House and the citizens of this country, a disgust obviously encouraged by [Hillary Clinton] in the name of artistic

freedom ... Here was another five golden rings ornament -- five gold-wrapped condoms. I threw it in the trash. There were other condom ornaments, some still in the wrapper, some not.[\[125\]](#) Of course, as soon as the book was published, The Washington Post published an article by another Jew, Howard Kurtz, that "debunked" Aldrich's "defamatory statements".[\[126\]](#) But not really.

I am astonished that the Christians aren't screaming "anti-Christianity". Instead, they meekly remain silent. The worst part is that if you expose this religious atrocity performed by Jews, you will be mercilessly attacked and accused of anti-Semitism. But this isn't "anti-Semitism". It has nothing to do with Christians hating Jews, but has everything to do with Jews hating Jesus and despising Christianity. It is so clever of the Jews to commit yet another atrocity and twist it into making themselves the "victim". As someone noted so well, "The Jew cries out in pain as he strikes you".

I wonder if it would be a good idea for the Christians in the White House to commission Christian artists to design some Jewish holiday ornaments, perhaps a menorah where the candles are all shaped like phalluses, and deliver it to the White House as a kind of "cultural exchange".

[40] Some claim that Elon Musk is not a Jew. Elon (אלון), or Alon (אילון) is a Hebrew masculine name that would not occur on a list of Gentile names. Musk attended Jewish schools in South Africa. His mother, Maye Haldeman, is Jewish but listed as "Canadian", which is hardly an ethnic group. There are Jewish family and other relations (Elon's brother married Jen Lewin), and more. Musk's connections with Israel and powerful Jews have a long history. Tesla's closet relationship with Israeli tech spans many years and its self-driving technology is 100% Jewish, originating from the Israeli company Mobileye. Musk has close and high-level contacts in Israel, having met with Netanyahu at his private residence on more than one occasion.
